REACH Region III Newsletter, Volume 1, Issue 11, January 2016

A New Year's State of Mind!

"I hope that in this year to come, you make mistakes. Because if you are making mistakes, then you are making new things, trying new things, learning, living, pushing yourself, changing your world. You're doing things you've never done before, and more importantly, you're doing something."

- Neil Gaiman

Fall Prevention

To learn more on how to prevent falls this winter <u>click here!</u>

About Severe Disabilities

"Researchers across the country find that fear and myths about people with disabilities keep many in this population segregated from the rest of the society in institutions."

Downs

Click here to watch this news report from Washington State about several individuals who live outside of an institutional setting. Research has found that about 90% of adults with severe disabilities currently live with family members or in small assisted living homes, and not institutions.

Click here to read the complete report!

Cultural Competence

In the upcoming months, we'll highlight resources from DBHDS' website on **Cultural Competence in**

ID & DD services that would be helpful for personal growth & a great tool for working with diverse families.

FEATURED

THIS MONTH

Did you know that African American children with Autism are 1-2 years older than Caucasian children before they are even diagnosed? Autism in the African American Community is a great resource to learn how Autism affects this community. This website provides links to research and articles to gain a better understanding, and also provides information about medical, education, and cultural disparities.

About REACH

REACH utilizes a team approach to provide: clinical assessment; crisis prevention, stabilization, and intervention planning and education; community and home based crisis intervention and stabilization to both adults and children diagnosed with an intellectual or developmental disability and a co-occurring mental health diagnosis or challenging behavior; and facility-based, therapeutic, emergency, and limited planned stays for individuals 18 and over.

The goal of REACH is to stabilize current or emerging crisis events and strengthen the individuals' support systems. With intervention and training, REACH increases capacity to support individuals served and promote person-centered positive outcomes. REACH serves adults and children with an intellectual or developmental disability and a co-occurring mental health diagnosis or challenging behavior that is affecting their quality of life.

Newsletter Submissions

If you or your organization has information that would be of interest to those working with I/DD populations, please submit that information to REACH (info@swvaREACH.org) with the subject line NEWSLETTER. Please include as much detail as possible (date, time, duration, cost, description, attachments, relevant links, etc.). This can include articles, trainings, events, etc.

Please keep in mind that submissions need to be made by the first of each month in order to be included in that month's newsletter. For example, if you want a submission included in newsletter, please send your information/nomination by **February 1st.**

Submit a spotlight nomination

We'd like to begin to highlight one person, organization, or program (in each monthly newsletter) who has gone above and beyond in serving the I/DD population. If you'd like to make a nomination, please <u>click here.</u>

To view a copy of last month's newsletter, click here.
